Modern Contemporary Card Design

The cards are a modern and contemporary square design. The insides of the card are blank so that a personal message may be hand written - alternatively for a charge you may have your own message. The child's name and the artwork title is printed on the reverse along with the option of an image of the artist.

Running a Little Paintbox Art Project is easy!

1. Register your organisation and your project dates

Please register your school details and project dates with Little Paintbox so that we can schedule some time to process your cards. You can register your project online at www.littlepaintbox.com, or alternatively, email or call us on 01359 233342

2. Register the children participating in the project

A class register is to be completed for each class of children participating in the project. You can download a spreadsheet from our website to complete and return to us on a Cd or by email. If you do not have access to the Internet please call us and we will send you a class register form to complete manually.

Class Register – please complete one form for each class

Your Organisation Name: _St Joseph's RC School_

Form Teacher: _Mr Bradshaw_   Form Number: _2B_

Class code _A_   (Create a code for each class A, B, C, etc)
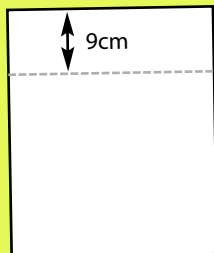

A01 Lucy Hazell
A02 Mia Richards
A03 Andrew Chalmers
A04 Abdul Khan

3. Prepare the paper for the artwork

As the Little Paintbox cards are a contemporary square shape, the artwork must be produced on A4 paper that has been folded 9cm from the top of the page to create a square that is roughly the same shape as the cards. Clearly print the child name, artwork title and child code in the area above the fold, and create the artwork in the area below the fold.

9cm

Draw a line 9cm from the top of the paper

Create artwork here

Fold paper so pencil line is on the inside of the fold

My Hands

Print the child code, child name, and artwork title in the blank area above the fold

4.

Create the artwork

Children of all ages enjoy participating in the art projects that may be themed around the national curriculum, seasonal times of the year, or topics of the child's choice.

Materials that work well:

Crayons, felt tips, pastels, poster paints, acrylics, or watercolours.

Materials that don't work well:

Pencil and glitter.

Here are some examples of artwork produced on previous art projects:

5. Take a digital photograph of each child (optional)

Parents usually prefer to have their child's photograph printed on the reverse of the cards, but if it is difficult for your organisation to obtain a digital photograph of each child then this feature may be excluded.

Getting the best results

To achieve the best photographs we recommend that you place a large white board, or a large sheet of white paper behind the children before taking their photograph with a digital camera.

Example images are detailed below:

Saving the images

Please copy the children's images to CD to send to us by post or email to us. It would help us with processing if you are able to save the images with the child's name and child's code (from the class register detailed in item 3), for example:
